## AUCTION #22

Closing June 17, 1990, Sunday, 6:00 p.m. USA Pacific Time

Mining tokens are featured in this auction with a number of USA explosives control checks and rarities from Spitsbergen, Mexico, Madagascar and Panama. USA Sales Tax Token lots include the Livingston, Illinois, Private issue as well as a top quality token from Astoria of the same state. A collection of Guatemala pieces is included as well as a small collection from Panama.

Lot descriptions are of necessity brief and oriented to numismatists. Sizes are in millimeters, although larger paper pieces are often in inches. Tokens are round unless otherwise indicated. Materials are shown as Al, Br, Cop, Ir, Ld, Nkl, Zn or Pl(astic). When parentheses are used it means that the information enclosed is not in the token legend or describes some device on the token. Catalog numbers are often used to aid description, e.g. (L#101.3) and refer to the most standard U.S. work on the topic at hand. Since listing each reference would be too cumbersome, please write if you need to know which. Dollar values written simply (\$5) mean a suggested bidding range. An MB enclosed with a dollar value in parentheses (e.g. (MR\$25)) means a "Reserve" or "Minimum Bid". Grading can be only approximate in a series as varied as tokens. Especially when tokens are crudely made, grading is at best subjective. I try to be conservative and in most cases have reduced items by one grade where there is any question in my mind. Comments on my listings and methods of operation are always welcome.

### SOME NEW PUBLICATIONS ...

Please pay for books in advance. All prices include USA Book Rate or International Surface Mail costs. Air Mail is extra. California residents please add 6.75% Sales Tax.

**Australia: Milk and Ice Tokens of New South Wales** by Melvin Williams (1989) 20 pp. card cover. A short catalog of the mostly aluminum series of the 1920's through 1940's. **\$4.00**

**France: French Military Tokens** (Le Monnaies de Necessite Militaire Francaises et Coloniales) by Jean Manasselian (1983-84) 78 pp. card cover. A reprint of two illustrated articles cataloguing known French military pieces. I have added a short catalog of colonial tokens, an index of military unit numbers by town and an overall military token finder list all of which should prove useful to English-reading collectors. In English and French. **\$6.75**

**Mexico: Fichas de Sonora** (Tokens of Sonora State) by Claudio Verrey (1990) 67 pp., glossy pages and cover, large size paperback. Published hard on the heels of Hal Birt's catalog, Claudio's work is much more extensive and focussed on tokens and their histories. The cover features color photos of many of the tokens and inside there are photos of many of the mine and hacienda operations which issued fichas. **Rarity scale. In Spanish but easy to follow.** **\$21.00**

**Panama: Panama Tokens** by Jerry F. Schimmel (1990) 20 pp card cover. In this short work I have published a collection of about 70 pieces including those issued during the Colombian administration, mining and plantation pieces, modern pieces and those issued for use by the U.S. Canal Zone and Military personnel communities. Well-illustrated with indexes, maps and a compilation of auction sale prices. In English. **\$4.00**

**Puerto Rico: Numismatic Catalog of Puerto Rico, Vol I** (Catalogo Numismatico de Puerto Rico) by Efrain Archilla-Diez (1990) 360 pp. paper back, glossy pages, it is going to be the definitive work on Puerto Rico tokens for some years to come. Sr. Archilla has done an outstanding job of compiling a catalog of all types of tokens issued on this small island including gaming pieces. There are about 1200 listings with photos and rarity scales. In English and Spanish. **\$39.95**

**Transportation Tokens: Catalogue of World Horsecar, Horseomnibus, Streetcar and Bus Transportation Tokens** by Kenneth E. and Kirk S. Smith (1990) 183 pp. hardback. This is the latest book on world transportation tokens coming now after twenty-three years. It is the second book in a planned series of five volumes to cover and expand all topics begun in 1967. **\$16.00**

**MAIL BID SALE RULES AND TERMS**  
(Please note changes.)

1. The sale closes at 6 p.m. USA Pacific Time on the date noted above or until 15 minutes pass with no telephone bid. Lots are sold to the highest bidder. In the event of tie bids the lot goes to the earliest arriving bid. Bids of only a few cents difference will be considered tie bids.
2. Bids must be in U.S. Dollars and those under \$3 are respectfully declined.
3. Winning bids will be reduced to a 10% advance over the next highest bid, or the Reserve (Minimum Bid) if any. In the event there is only one bidder, bids will be reduced to the published estimate, but not lower. The maximum reduction will be 50% of the highest bid in any case. Bids will not be reduced under \$10. In general acceptable bids will be those that are at least 60% of the published estimate.
4. Successful bidders will either be billed first or sent winning lots with the bill if they are established customers. Postage, shipping and insurance costs will be added to the invoices where such are appropriate. There will be a minimum charge of \$1 for postage and processing. A Bidder's Fee of 5% or \$1 will be added whichever is higher. California residents must pay 6.25% Sales Tax. Overseas customers must accept responsibility for postal delivery.
5. **Prices Realized:** please order them when you submit your bids. Do not send payment. I will include the cost with your bill, \$1 per copy.
6. Lots may be returned within 10 days of their receipt only if there is a major error in the description or in the material sent. Please check the shipments for such and keep a copy of the bids you submit. Please pay within 5 days.
7. **Lots Made Up of Multiple Pieces:** In most cases these consist of items which are a) very common, b) badly worn or damaged, c) issued after 1950, d) of little collector interest or e) all of the above. Please bid accordingly. I try to describe them as much as I can afford the space, but because of their nature descriptions have to be limited.
8. Book prices include USA Book Rate or International Surface Mail postage. First Class or Air mail is extra, unless otherwise indicated.

BIDDING BY TELEPHONE? My number is (415) 648-8634. The best hours to reach me are 7-9 a.m. USA Pacific Time. However the least expensive and most certain means to bid is by mail even if only on a postcard. At times business may keep me away from the phone for days. I will accept bids over the phone and current bid levels are available from the computer. However if you request such information, you must bid at least 10% over the highest in order to have your new bid qualify. For items quoting under \$10, you must bid at least \$1 more to qualify. For those who like to call in bids at the last minute: I will try to have all bids posted, but often at the end of the day it is not possible when they come in all at once. 98% of all successful bidding is accomplished with high bids by mail.

## MAIL AUCTION #22

### Prices Realized

Some highlights of this sale were as follows: #740, the German Westfalen 1923 1 Billion Mark Notgeld sold at \$245. A Puerto Rico Military decoration (#306) went at \$171. The front page story set of four tokens from Spitsbergen (#858) sold for \$168 and No. 229, the USA Washington State copper Sales Tax Token went for \$165. Number 913 turned out to be a German Naval Token selling at \$35.

Lot 732 received the highest number of bids, ten, although the sale price was only \$7. Numbers 18, 19 and 410 received nine each with respective sale prices as \$80, \$80 and \$34.

The left hand column below is the Lot number. Lots not listed received no bids or else received those too low for consideration. The middle column is the auction price rounded to the nearest US dollar, although in many cases the actual amount may have been somewhat above or below that given. The figure in parentheses is the number of those bidding for any given lot.

POST OFFICE BOX 40888  
SAN FRANCISCO, CALIFORNIA 94140  
U.S.A.

(ARKTIKUGOL, OSTROV SHPIITSBERGEN) -  
Arktikuol Mining Co., Spitsbergen  
Island. On the front page of Sale 19 I  
asked how many on this side of the  
Atlantic knew the location of the Faeroe  
Islands. Where is Spitsbergen? The token  
shown is from a Soviet coal mining  
company which apparently began  
operations in 1932, according to Krause  
and Mishler, and issued a set of four  
brass and nickel tokens in 1946. They  
are of four denominations, 10, 15, 20  
and 50 Kopecks, much as any USA Coal  
Mine Script.

West Spitsbergen, one of several and  
the largest, is midway between Greenland  
and Novaya Zemlya and coal extraction  
began in 1900. The American Arctic Coal  
Company also started an operation in  
1904. For a long time the area was in  
dispute but was finally awarded to  
Norway in 1920. (SEE LOT 858.)
